Priya Raman

Full-Stack Software Engineer | priya.raman@example.com

Engineer who builds reliable web platforms. Led a payments rewrite that handles 2 million requests a day.

EXPERIENCE

Staff Engineer, Tidewater Systems 2022 - Present

- *Led the payments service rewrite in Go and TypeScript*
- Brought p99 latency from 900 ms to 120 ms
- Mentored 6 engineers across two teams

Software Engineer II, Harbor Cloud 2018 - 2022

- Built the event pipeline processing 40 million messages daily
- Introduced contract testing across 11 services

SELECTED PROJECTS 1

- Project 1.1: delivered a measurable improvement for the Tidewater Systems team with clear owner and result.
- Project 1.2: delivered a measurable improvement for the Tidewater Systems team with clear owner and result.
- Project 1.3: delivered a measurable improvement for the Tidewater Systems team with clear owner and result.
- Project 1.4: delivered a measurable improvement for the Tidewater Systems team with clear owner and result.
- Project 1.5: delivered a measurable improvement for the Tidewater Systems team with clear owner and result.
- Project 1.6: delivered a measurable improvement for the Tidewater Systems team with clear owner and result.
- Project 1.7: delivered a measurable improvement for the Tidewater Systems team with clear owner and result.
- Project 1.8: delivered a measurable improvement for the Tidewater Systems team with clear owner and result.
- Project 1.9: delivered a measurable improvement for the Tidewater Systems team with clear owner and result.
- Project 1.10: delivered a measurable improvement for the Tidewater Systems team with clear owner and result.
- Project 1.11: delivered a measurable improvement for the Tidewater Systems team with clear owner and result.
- Project 1.12: delivered a measurable improvement for the Tidewater Systems team with clear owner and result.
- Project 1.13: delivered a measurable improvement for the Tidewater Systems team with clear owner and result.
- Project 1.14: delivered a measurable improvement for the Tidewater Systems team with clear owner and result.

SELECTED PROJECTS 2

- Project 2.1: delivered a measurable improvement for the Tidewater Systems team with clear owner and result.
- Project 2.2: delivered a measurable improvement for the Tidewater Systems team with clear owner and result.
- Project 2.3: delivered a measurable improvement for the Tidewater Systems team with clear owner and result.
- Project 2.4: delivered a measurable improvement for the Tidewater Systems team with clear owner and result.
- Project 2.5: delivered a measurable improvement for the Tidewater Systems team with clear owner and result.
- Project 2.6: delivered a measurable improvement for the Tidewater Systems team with clear owner and result.
- Project 2.7: delivered a measurable improvement for the Tidewater Systems team with clear owner and result.
- Project 2.8: delivered a measurable improvement for the Tidewater Systems team with clear owner and result.
- Project 2.9: delivered a measurable improvement for the Tidewater Systems team with clear owner and result.
- Project 2.10: delivered a measurable improvement for the Tidewater Systems team with clear owner and result.
- Project 2.11: delivered a measurable improvement for the Tidewater Systems team with clear owner and result.

Confidential — references available on request

- Project 2.12: delivered a measurable improvement for the Tidewater Systems team with clear owner and result.
- Project 2.13: delivered a measurable improvement for the Tidewater Systems team with clear owner and result.
- Project 2.14: delivered a measurable improvement for the Tidewater Systems team with clear owner and result.

EDUCATION

University of Washington — BS Computer Science (2018)

SKILLS

TypeScript, Go, PostgreSQL, Kubernetes, System design, Mentoring
